

To whom it may concern,

Since we implemented our new state law concerning telemarketing calls my phone has stopped ringing 10 times every night from some person that I do not want to talk to. I have a right to my privacy and to be able to live in my home without someone constantly calling me for something I do not want. Believe me...if I want something I know how to shop for myself. I have the telephone and the Internet at my disposal and I know how to use them. The unsolicited phone calls are disruptive to my lifestyle. Leave the Indiana laws alone. They are working just fine for Indiana!!!
